

75th ANNUAL STATEMENT
FOR THE YEAR ENDED DECEMBER 31, 2013

SOUTHEASTERN
Mutual

Insurance Company

JOINT REPORT FROM THE CHAIRMAN OF THE BOARD AND THE PRESIDENT

Chairman's Address - Don Howe

Welcome to our 75th annual meeting.

It gives me pleasure to say, we have had another good year. Darrel will give you the company highlights. I would like to review the past year from a director's perspective.

This past year was a rollercoaster year for our Board, with its highs and its lows.

We continue to share different perspectives with our partners in United General on what direction the company needs to take. Furthermore, we were of the opinion that an operating division should not have taken advantage of a provision in the shareholders' agreement that was put there to reduce a small division's operating expenses and allow them an opportunity to grow. So early in June we went to arbitration to have this disagreement settled. Unexpectedly, Carleton and Stanley sided with Fundy and filed against us. This, plus the fact that we had signed the open-ended agreement back in 2001, presented the arbitrator little choice but to provide a favourable decision to the other parties. As a result of this decision, our share of operating expense this year in United General was in excess of \$770,000.00. This does not include any past period adjustments as a result of the decision. As a Board we are still researching our options as to how we will move forward with United General.

In last year's report I mentioned that it was very likely that we would move away from the Mutual Guarantee Pool Fund by joining the PACCIC, a federal insurance co solvency fund. In February of this year, we received a letter from the Superintendent's Office requesting that we do so. We have filed application, and this will cost us an additional \$4,225.00 annually in fees, and possibly Actuarial costs as well.

In following through with our Strategic Business from a recent strategic planning session, we have been increasing our sales force in our traditional service area. Being a provincial insurer, we have also been exploring possibilities in other areas of the province to assist with our growth initiatives and to enable us to spread our risks. With this in mind, I am pleased to announce that in January of this year we expanded our geographical trading area by appointing three brokers to provide both SEM & UGIC products outside our traditional service areas. As an organization, we remain 100% committed to our existing agency model and view this new distribution channel as a complement to it.

This year I had the opportunity to attend a course on Strategic Planning with fellow director, Jim Stark & our CEO, Darrel Coates. It was prepared by Jack C. Randall of *Windmill Leadership*. In his presentation, he stated "Our future success will depend upon:

1. Our ability to learn
2. Our ability to change and,
3. Our ability to accept uncertainty."

I believe, we as a Board of Directors have embraced all three, and because of this I am anxiously looking forward as to what this year brings.

Thank you for being a valued policyholder member.

Don Howe, Chairman

A handwritten signature in dark ink, appearing to read 'Don Howe', written over a light background.

2013 President & CEO Report - Darrel Coates

Once again it's both an honor and privilege to be your president & CEO; it's my pleasure to present to you, our policyholders, my report for the fiscal 2013.

As an organization, we completed a number of key projects and priorities throughout the year and introduced several new programs and strategies to improve Southeastern's position in the industry and responsibilities to our policyholders and the communities that we serve. Our Chairman, Don Howe, will speak on a few of these initiatives in his report.

During 2013, we expanded our geographical trading area to the rest of the province by providing insurance services and products to select brokers on a trial basis. This was in response to a strategic decision from one of our planning sessions. Our trial relationship with Anderson McTague Ltd. provided us with the foundation for further expansion into the independent brokers' distribution channel early in 2014.

Our new brokers are:

1. Pearson Insurance, Sussex
2. Bestway Insurance, St. Andrews
3. St. George Insurance, St. George

This is an important strategy in our industry, as it provides an increased spread of risk, especially as weather-related losses continue to increase in frequency and severity. This expansion complements our existing agency distribution channel, by providing our unique product offerings throughout our geographical trading area.

Our overall revenue targets continue to improve year over year for both our property division and auto division within United General. Overall premium growth continues to be strong with increases in new business counts, as well as overall positive policy and premium growth, which support our continued improvements in retention. The results for our auto division in United General continue to be positive; however they are being impacted by pricing issues with the product. We anticipate the changes made in 2013 will have a positive impact on our 2014 growth initiatives, as we explore options for delivery of this important product to our policyholders.

Financial operations performance was strong again in 2013, with our operations providing our second straight year of positive underwriting results. This was despite a budgeted increase in some one-time expenses related to our 75th anniversary, which assisted with our continued brand-building initiatives and supporting of community events. These were in addition to some unanticipated professional fees as a result of ongoing shareholders' issues at United General. While the desired results didn't materialize, as an organization we now have clarity on the issue, which allows us to plan for the future. Although claims frequencies were relatively flat year over year; we did experience an increase in claims severity for the period. This was primarily driven by weather-related events, as we see wind and water related losses starting to surpass fire as our most common occurrences. These results are not inconsistent with industry trends and are considered typical as we read news events from across the country of floods in Alberta, Ontario and ice storm events. Our Adjuster, Donnie Saunders, will be providing more details in his report.

A true measure of a company's success is its combined ratio as a benchmark. Our ratio for 2012 was 95.3% and 96.8% in 2013. The combined ratios measure the organizations ability to provide a positive return on insurance operations before investment returns. With the improved investment market, our overall return on equity was 5.06% for 2013. These numbers are indicative of the insurance industry's early results; however, they were impacted by our deteriorated results from United General. The company's Market Capital Test of 812.8% continues to exceed our internal operating target of 450% and the regulators' threshold of 150%. Our company continues to be well capitalized for future growth.

Another key strategic item is risk appetite, which we constantly monitor and assess as an organization. Our continued financial stability and strength as a mutual insurance company provide us with exceptional opportunities for expansion. As a result, we were able to leverage our unique relationship with our reinsurance provider, to prepare and submit a proposal to our regulator in 2013 to increase our capacity as a company. Our proposal, requesting the ability to utilize our capital by assuming more risk, was approved. This resulted in lower reinsurance premiums and operating expenses moving forward. You will continue to see the improvements in our net earned premiums and improved operating expenses moving forward. Expense control initiatives remain one of our key strategic pillars as an organization, as we continue to seek better economies of scale.

It was also a year of significant growth within our organization. Our commitment to developing a talented and professional team of employees progressed favourably with the introduction of a performance-based review process and goal setting. This remains an ongoing priority with a focus on the development of existing personnel and recruitment of additional talent as required. This past year saw us bolster our agency sales force with the addition of Eugene Bastarache in Kent County, in anticipation of upcoming retirements.

Furthermore, we continued to add staff as required throughout our operations; we welcomed Emily Boss and Amy Glenn. As well, Bob Nuttall joined our organization as a contract Inspector.

Early in 2014, we plan on adding a product/policy wording position to our organization as we continue to strive to offer first-rate insurance products to our policyholders from a local perspective. This addition fully supports another strategic pillar by ensuring that we remain competitive, as we move forward in our offerings and pricing with an innovative niche product development. Increasing our resources provides us the ability to research, develop and respond quickly to constantly changing market conditions as a local insurance company. This new position allows us to take advantage of the wealth of information available to us from our reinsurance company and trade associations. Networking remains a key component to our success.

This is a challenging time for both insurance providers and insurance consumers. We appreciate your continued loyalty as a policyholder member of SouthEastern Mutual. Political intervention is high in the areas of demutualization, increased regulations and automobile insurance. As well, we continue to see a high frequency in market consolidations at both the insurer and distributor level. As reported last year, we believe this will continue to be an ongoing activity within our industry, since last year we have seen no fewer than seven announced consolidations.

Our overall capital base continues to grow at a desirable rate. We have been extremely successful in achieving key strategic objectives while continuing to build a strong equity position to support these initiatives. This continues to be an important objective and we will be increasing our emphasis on deployment of capital through growth and expanded risk. We believe this is a necessary strategy to keep your company at the forefront with an appetite for innovation, appropriate risk selection to foster long-term sustainable growth in a rapidly changing environment. Our assets increased to \$19,290,000 for the period with member surplus increasing to \$14,304,000, ensuring SouthEastern's financial stability & strength moving forward.

I hope that you have caught a sense of how your board and management team take pride in what we do every day. Our history shows that we've persevered through all kinds of economic, climate and industry challenges and have prospered for over 75 years. I want to personally thank my management team, our agents and staff for all their efforts this past year. Additionally, I would like to thank the Board of Directors for allowing me the opportunity to be associated with a truly exceptional organization. Once again, in 2013, we are extremely proud to have been recognized as one of the Top 20 Best Places to work, as well as being a 101 Top Business in Atlantic Canada.

In conclusion, please accept the appreciation of all SouthEastern Mutual staff, agents and Directors for your continued loyalty as a policyholder member. We value your confidence and trust in us as your local insurance provider and we look forward to serving you moving forward.

Mutually Yours,
Darrel Coates, President & CEO

INDEPENDENT AUDITORS' REPORT ON CONDENSED FINANCIAL STATEMENTS

To the Policyholders of SouthEastern Mutual Insurance Company:

The accompanying summary financial statements, which comprise the condensed statement of financial position and condensed statements of changes in equity, comprehensive income, cash flows, and related notes, are derived from the audited financial statements of SouthEastern Mutual Insurance Company for the year ended December 31, 2013. We expressed an unmodified audit opinion on those financial statements in our report dated February 20, 2014.

The summary financial statements do not contain all the disclosures required by International Financial Reporting Standards. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of SouthEastern Mutual Insurance Company.

Management's Responsibility for the Summary Financial Statements

Management is responsible for the preparation of a summary of the audited financial statements in accordance with Canadian generally accepted accounting principles.

Auditors' Responsibility

Our responsibility is to express an opinion on the summary financial statements based on our procedures, which were conducted in accordance with Canadian Auditing Standard (CAS) 810, "Engagements to Report on Summary Financial Statements."

Opinion

In our opinion, the summary financial statements derived from the audited financial statements of SouthEastern Mutual Insurance Company for the year ended December 31, 2013 are a fair summary of those financial statements, in accordance with International Financial Reporting Standards.

THE FINANCIAL PICTURE 2009 - 2013

COMBINED RATIO 2004 - 2013

Year	Earned Premium	Claims	Combined Claims & Expenses	Ratio
2004	3,565,616	1,278,955	3,247,066	91.1%
2005	3,685,423	1,504,659	3,432,885	93.1%
2006	3,913,555	1,547,542	3,643,279	93.1%
2007	4,126,525	1,611,040	3,857,316	93.4%
2008	4,149,632	1,594,594	3,900,856	94.0%
2009	4,254,700	2,232,056	4,605,464	108.2%
2010	4,454,626	2,014,823	4,723,686	106.0%
2011	4,671,822	2,351,250	4,957,246	106.1%
2012	5,194,108	2,085,288	4,949,943	95.3%
2013	5,472,751	2,151,830	5,299,845	96.8%

The most accurate indicator of a company's performance is its **Combined Ratio**. This measures the cost of claims and expenses against the total revenue for the year. This allows you to compare prior year's results to the current year; the results should be less than 100%. A result of less than 100% indicates an **underwriting profit**, while a result greater than 100 indicates an **underwriting loss**.

The above graph indicates that we have produced an underwriting profit 7 out of the last 10 years. These results also clearly illustrate the cyclical and unpredictable nature of an insurance company's results. This has been evident in recent years with the increase in water, fire and fuel losses that the company and our policy holders have been impacted by. With the continued combined effort of our staff, agents and inspectors, we anticipate to see continued improvements in these trends.

Our company's ten year average is 97.7%
